OFF-STUBBLE

CR3000
Resistance increases productivity

Engineered for high-power combines, the Trelleborg CR3000 delivers high performance in demanding harvesting operations. The Off-Stubble Technology helps protect the tire from crop residue damage, while VF-CFO technology supports higher cyclic loads. Its innovative tread design enhances self-cleaning and traction, ensuring consistent performance in the field.

WITH OFF-STUBBLE TECHNOLOGY

RESISTANCE TO STUBBLE DAMAGE	EXTENDED TIRE LIFE	HIGH LOAD CAPACITY	LOW SOIL COMPACTION	EXCELLENT SELF-CLEANING

Designed for maximum performance

The CR3000 tire ensures protection against stubble damage and withstands the strain of maximum loads. During harvesting operations, it offers stability and precision for demanding field conditions. Built for long-lasting durability, the CR3000 helps maximize productivity, ensuring uninterrupted performance.

1 Stubble resistance
The integrated Off-Stubble Technology, together with an optimized design and dedicated compound, reduces the risk of stubble damage.

2 Durability
The enhanced carcass minimizes downtime during critical harvesting periods, supporting maximum productivity when it matters most.

3 Self-cleaning
The innovative interlug design improves self-cleaning capability, helping maintain traction in challenging soil conditions.

4 VF-CFO technology
The VF (Very High Flexion) technology minimizes soil compaction, while the CFO (Cyclic Field Operation) technology supports higher load capacity during demanding field operations.

Size	Tread Pattern	SW mm	OD mm	SRI	Rim	Permitted Rims	Type
VF 750/65R26 183A8/B CFO	CR3000	in preparation					Tubeless
VF 800/65R32 186A8/B CFO	CR3000	760	1.855	875	DW27B	DW28B - DW30B	Tubeless
VF 900/60R38 196A8/B CFO	CR3000	880	2.030	975	DW30B	DW27B	Tubeless
VF 710/70R42 193A8/B CFO	CR3000	in preparation					Tubeless

More size will come to fulfill the market requirements.
