**ENHANCED ROAD
BEHAVIOUR**

The new TM900 ProgressiveTraction® tire is the next step in the evolution of a product that has already made its mark in high-horsepower tractor applications. Ideal for transporting heavy tanks under full load, the tire delivers exceptional reliability in all conditions, easy handling on any terrain and during long road travel. Its performance contributes to increased profitability and sustainability in farming operations.

TM900 ProgressiveTraction®

1 Superior traction

The ProgressiveTraction® tread design delivers up to 17% more traction than competitor tires, enhancing grip and stability. It optimizes productivity improving fuel efficiency and lowering the overall operational costs*.

2 Longer tire life

The wider base of the ProgressiveTraction® lug ensures higher resistance to vibration, reducing fuel consumption and extending tire life by up to 20% against competition**.

3 Higher self-cleaning

With its innovative lug design, the TM900 ProgressiveTraction® delivers outstanding self-cleaning performance, maximizing traction and boosting efficiency in every operation.

4 Increased roadability

The optimized lug angle and shape provide exceptional stability, ensuring a smoother and safer ride both on the field and on the road.
