

EMR1051 Earthmover Radial Tires

PREMIUM RADIAL PNEUMATIC

Designed for loaders, the EMR1051 range is the best solution for intensive loading applications in industries such as open pits and quarries as well as infrastructure and building construction and landscaping where traction cannot be compromised.

The Trelleborg EMR range is designed to enhance productivity in critical construction applications, delivering both enhanced damage protection and durability. The multi surface tread design delivers control and perfect grip when it's needed the most, whether on sand, rock, gravel or soil.

The strong radial carcass and state of the art compound assure long life, while providing equal load distribution for a comfortable ride, maintaining low fuel consumption.

Main Benefits

- Optimal traction
- Excellent tire life due to deep tread
